

Conveyance of Students

There are occasions when it becomes necessary in connection with games fixtures, Academy visits, community projects, etc. for teachers to convey students in the Academy minibus and teacher's or parent's cars. Parents who do this are advised to check with their insurers to confirm that their insurance does cover this type of activity. It is because of the legal and insurance implications that we are required to obtain the consent of parents for their children to be conveyed in this manner. To attempt to obtain that consent on every individual occasion would be impractical and, therefore, we are asking all parents for their approval in principle by completing the Student Data Form.
