

Sutton Community Academy

Careers Programme

Published September 2021

Information for Employers

At Sutton Community Academy we have an exciting Careers Programme, full of activities and events to help prepare students to leave our school as competent individuals, who are ready to make a positive contribution to their local communities. We would be thrilled to have your input and collaboration in any of these activities that you feel you could support students with:

- ⇒ Learning about different jobs and the skills required for them, through subject lessons
- ⇒ Learning about and developing key career-decision making skills
- ⇒ Exploring career progression through first-hand encounters with a variety of businesses and training providers
- ⇒ Experiencing workplaces through a variety of visits
- ⇒ Having a first-hand experience in a not-for-profit organisation by taking part in citizenship placement during Year 10
- ⇒ Enhancing their employability skills and learning about entrepreneurship, employment options, job applications and selection processes through a range of workshops and assemblies

All activities are supported by the Career Development Framework

For a positive career you need to...

If you feel you could support with one or more of these activities during the year, or if you would like further information about ways in which you could support the Academy's careers programme please contact the Academy's Career Leader -
