Education

Our Trust

*These four critical questions make it clear who we are and what we do.
We ask ourselves these questions to guide our work and our improvement.*

Why do we exist?

To **transform life chances** by achieving the highest possible standards and preparing all our students to lead successful lives.

How do we behave?

- **Hard work**
We are determined to see things through to the end and are resilient when faced with challenges.
- **Integrity**
We do the right thing because it is the right thing to do.
- **Teamwork**
We work together to help everyone succeed.

What do we do?

- We educate, safeguard and champion all our learners.
- We set high standards for ourselves and our learners.
- We build the powerful knowledge and cultural capital which stimulate social mobility and lifelong learning.

How will we succeed?

1. Aligned autonomy
2. Keeping it simple

3. Talent development

1 | Introduction

- 1.1 Our Trust believes that in order to create a happy and successful adult life, children and young people need to have the self-confidence to make informed decisions about their wellbeing, health and relationships. Relationships Education and Relationships and Sex Education (RSE) is about giving children and young people the information they need to help them develop healthy, nurturing relationships of all kinds, not just intimate relationships. Health Education is giving pupils information to make well-informed, positive choices about their own health and wellbeing. Our Trust recognises that physical health and mental wellbeing are interlinked, so it is important that pupils understand that good physical health contributes to good mental wellbeing and vice versa.
- 1.2 Our Trust has a responsibility under the Equality Act (2010) to ensure the best for all pupils at our academies, irrespective of disability, educational needs, race, nationality, ethnic or national origin, sex, gender identity, pregnancy, maternity, religion or sexual orientation. As a result, Relationships Education, RSE and Health Education will be sensitive to the different needs of individual pupils and may need to adapt and change over time to reflect the needs of the particular cohort. The Trust may also take positive action, where it can be shown that it is proportionate, to deal with particular disadvantages affecting one group because of a protected characteristic.
- 1.3 Our Trust is aware of the need to be mindful of and respectful to a wide variety of faith and cultural beliefs across its academies, and will make every attempt to be appropriately sensitive. Equally, it is essential that children and young people have access to the learning they need to stay safe, healthy and understand their rights as individuals. Our Trust believes that our pupils deserve the right to honest, clear, impartial scientific and factual information to help better form their own beliefs and values, free from bias, judgement or subjective personal beliefs of those who teach them.
- 1.4 All teaching will be sensitive and age appropriate in approach and content. At the point at which the Trust considers it appropriate to teach pupils about lesbian, gay, bisexual, and transgender (LGBT) issues, the Trust will ensure that this content is fully integrated into programmes of study for this area of the curriculum rather than delivered as a stand-alone unit or lesson. The Trust will encourage wider pupil awareness of LGBT.
- 1.5 This policy has been developed in consultation with parents, pupils, and staff from all academies within the Trust to ensure that it meets the needs of the whole Trust community. The review of the policy will include:
 - Annual parent consultation to inform them of any changes. Parents are asked for their feedback.
 - Staff, pupil, and Local Governing Boards will be asked to provide feedback through stakeholder voice opportunities.
 - Ratification - once any required amendments are made the policy is shared with the Trust Board to be ratified.

- 1.6 This policy will be reviewed annually and parent will be consulted in advance about significant changes.

2 | Aims and Objectives

- 2.1 Through the delivery of high-quality, evidence-based, and age-appropriate Relationships Education, RSE and Health Education, the Trust aims to help prepare pupils for the onset of puberty, give them an understanding of sexual development and the importance of health and hygiene, create a positive culture in relation to sexuality and relationships, and to ensure pupils know how and when to ask for help and where to access support. By the end of their education, the Trust hopes pupils will have developed resilience and feelings of self-respect, confidence and empathy in preparation for the responsibilities and experiences of adult life.
- 2.2 Relationships Education, RSE and Health Education are intended to help pupils to:
- Build healthy, respectful relationships focusing on family and friends
 - Understand how to be healthy and be aware of potential risk areas (such as drugs and alcohol)
 - Learn about intimate relationships and sex
 - Learn about mental wellbeing
 - Develop key personal attributes, such as kindness, integrity, generosity, and honesty.

3 | Definitions

- 3.1 Relationships Education at the primary phase is about teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, relationships with other children and with adults, and who can support them. It includes how to take turns, how to treat each other with kindness, consideration and respect, the importance of honesty and truthfulness, permission seeking and giving, and the concept of personal privacy, establishing personal space and boundaries.
- 3.2 RSE is lifelong learning about physical, sexual, moral, and emotional development. It is about teaching sex, sexuality and sexual health in a way that gives pupils the confidence to make sound decisions when facing risks and other challenges. It includes teaching about friendship, the importance of caring, stable and mutually supportive relationships with other people, and how to control and understand feelings that come with being in a relationship.
- 3.3 RSE **does not encourage early sexual experimentation**. It teaches children and young people to understand human sexuality and to respect themselves and others, to build self-esteem and

understand the reasons for delaying sexual activity so that they can develop safe, fulfilling, and healthy sexual relationships, at the appropriate time.

- 3.4 RSE will outline that there are different types of committed, stable relationships, the characteristics and legal status of other types of long-term relationships, the importance of marriage as a relationship choice and why it must be freely entered into, how relationships might contribute to human happiness and their importance for raising children, as well as highlighting the roles and responsibilities of parents with respect to raising children, characteristics of successful parenting and how to judge when relationships have become unsafe as well as how to seek help or advice and report concerns about others.

4 | Roles and Responsibilities

- 4.1 All members of the Trust community are expected to follow this policy. Roles, responsibilities, and expectations of each section of the Trust and academy community are set out in detail below.
- 4.2 **Board of Trustees:** Trustees will monitor and evaluate the impact of the policy by reviewing pupils' progress in achieving the expected educational outcomes. They will hold the Chief Executive Officer and Principals to account for the implementation of the policy.
- 4.3 **The Chief Executive Officer (CEO):** The CEO will ensure that Relationships Education, RSE and Health Education is taught consistently across the academies within the Trust and will report back to the Board of Trustees on educational outcomes. They will ensure that senior staff receive regular professional development training in how to deliver Relationships Education, RSE and Health Education.
- 4.4 **Local Governing Boards:** Local governors in each academy will review and monitor the application and implementation of this policy by receiving regular feedback from the academy Principal on educational outcomes. Local governors will scrutinise relevant data, review any issues that might arise, and act as a point of challenge for decisions taken by the Principal. The Local Governing Board will annually feedback its findings to the Board of Trustees.
- 4.5 **Principals:** Each academy Principal, with support from their respective Senior Leadership Team, will ensure that staff are supported and up to date with policy changes. They will ensure that Relationships Education, RSE and Health Education is well led, effectively managed, and well planned across various subjects (to avoid unnecessary duplication of topics) and that the quality of provision is subject to regular and effective self-evaluation. The Principal will ensure that teaching is age-appropriate, delivered in ways that are accessible to all pupils with SEND and that the subjects are resourced, staffed and timetabled appropriately. They will ensure that teaching delivered by any external organisation is age-appropriate and accessible for pupils and will liaise with parents regarding any concerns or opinions regarding Relationships Education, RSE and Health Education provision and will manage parental requests for withdrawal of pupils from non-statutory, non-science components of Relationships Education, RSE and Health Education.

- 4.6 **Staff:** Teachers of Relationships Education, RSE and Health Education will ensure that they are up to date with school policy and curriculum requirements regarding sex education and will attend and engage in professional development training. Teachers will encourage pupils to communicate concerns regarding their social, personal and emotional development in confidence, listen to their needs and support them seriously. If a pupil comes to a member of staff with an issue that that member of staff feels they are not able to deal with alone, they will take this concern to their line-manager.
- 4.7 **Parents:** The Trust hopes to build a positive and supporting relationship with parents through mutual understanding, cooperation and trust. Parents are expected to share the responsibility of sex education and support their children's personal, social and emotional development. The Trust hopes parents will create an open home environment where pupils can engage, discuss and continue to learn about matters that have been raised through school. Parents are also encouraged to seek additional support in this from the academy their child attends where they feel it is needed.
- 4.8 **Pupils:** Pupils are expected to take Relationships Education, RSE and Health Education seriously. Pupils are expected to listen, be considerate of other pupils' feelings and beliefs, comply with class-set confidentiality rules and support one another with issues that arise during class. Pupils who fail to follow these standards of behaviour will be dealt with under the Trust's Behaviour Policy.

5 | Delivery

- 5.1 Relationships Education, RSE and Health Education will be delivered in a non-judgmental, factual way allowing scope for children and young people to ask questions in a safe environment. Teachers will tailor the delivery of Relationships Education, RSE and Health Education to meet the specific needs of the pupils in that class, and to be responsive to their behaviour and development. Classes will explore different attitudes, values and social labels, and develop skills that will enable our pupils to make informed decisions regarding sex and relationships as well as being able to differentiate between fact, opinion and belief and an understanding of the law on various topics. Pupils will be taught the anatomically correct names for body parts, but slang or everyday terms used in certain social circles will be discussed; this will surround discussion about what is and isn't acceptable language to use.
- 5.2 Staff will ensure that all resources used in the delivery of Relationships Education, RSE and Health Education are appropriate for the age and needs of their pupils. Examples of these resources are included in the appendices of this policy.
- 5.3 By the end of their primary education, the Trust expects pupils to know the information set out in Annex 1 and 3. For Secondary Education, the information set out in Annex 2 and 4.

The Trust recognises that primary-age pupils may ask questions relating to sex or sexuality that extend beyond the scope of the planned curriculum for Relationships Education, RSE and Health Education.

- Staff must exercise professional judgement in responding to such questions, taking into account the age, maturity and safeguarding context of the pupil.
- Teaching methods should be adapted to suit the nature of the question, whether through whole-class discussion, small group dialogue or one-to-one conversation.
- Pupils may submit questions anonymously via mechanisms such as question boxes, and staff may use distancing techniques; such as third-person scenarios, to maintain a safe and inclusive learning environment.
- Ground rules should be established at the outset of PSHE sessions to clarify boundaries and expectations.
- Where questions raise safeguarding concerns or require further consideration, staff must consult the Designated Safeguarding Lead (DSL) and document the interaction appropriately.
- All responses should be aligned with the Trust's safeguarding curriculum and reflect the values of transparency, respect and age-appropriate education.
- Staff will receive ongoing training to build confidence in managing sensitive topics and ensuring consistency across settings.

5.4 Primary Academies: In our primary academies Relationships Education will be delivered in science, computing and Personal, Social, Health and Economic Education (PSHEE). Children of the same age may be developmentally at different stages, leading to differing types of questions or behaviours. Staff will use teaching methods that take account of these differences and the potential for discussion on a one-to-one basis or in small groups.

5.5 Secondary Academies: In our secondary academies RSE will be delivered through a range of subjects including science, religious education, computing and Personal, Social, Health and Economic Education (PSHEE) and will build on the foundation of Relationships Education delivered in primary school.

6 | Relationships Education and RSE: Curriculum and Outcomes

6.1 By the end of their primary education the Trust expects pupils to know the information set out at Appendix 1. The Trust recognises that primary-age pupils may ask their teachers or other adults questions pertaining to sex or sexuality which go beyond the designed curriculum for Relationships Education. Teaching methods will take account of the potential different types of questions and behaviours likely to arise and staff will assess which types of teaching methods

would be most appropriate (for example, a full class setting, one-to-one discussions or in small groups).

- 6.2 By the end of their secondary education, the Trust expects pupils to know the information set out at Appendix 2.

7 | Health Education: Physical Health and Mental Wellbeing

- 7.1 The Trust wishes to promote pupils' health and well-being by encouraging self-control, their ability to self-regulate and strategies for doing so. This will enable pupils to become confident in their ability to achieve well and persevere even when they encounter setbacks or when their goals are distant, and to respond calmly and rationally to setbacks and challenges. The Trust believes that an integrated, whole-school approach to the teaching and promotion of health and wellbeing will have a positive impact on behaviour and attainment. Health Education will be delivered in science, computing, Physical Education (PE) and Personal, Social, Health and Economic Education (PSHEE).
- 7.2 By the end of their primary education, the Trust expects pupils to know the information set out at Appendix 3.
- 7.3 By the end of their secondary education, the Trust expects pupils to know the information set out at Appendix 4.

8 | Pupils with Special Educational Needs and/or Disabilities

- 8.1 The Trust will endeavour to ensure that Relationships Education, RSE, and Health Education is accessible for all pupils. We are aware that some pupils are more vulnerable to exploitation, bullying and other issues due to the nature of their SEND. Relationships Education, RSE and Health Education may be particularly important for such pupils, for example those with Social, Emotional and Mental Health needs or learning disabilities. Teaching will be sensitive, age-appropriate, developmentally appropriate, differentiated and personalised to meet the specific needs of pupils at different developmental stages.
- 8.2 Staff will make reasonable adjustments to alleviate disadvantage faced by pupils with disabilities and will be mindful of the SEND Code of Practice and the Trust's SEND Policy when planning for

these subjects. Staff will use a variety of different strategies to ensure that all pupils have access to the same information.

8.3 Our specialist academies will take into consideration the scope and content of the policy and will tailor the content and teaching of Relationships Education, RSE, and Health Education to meet the specific needs of pupils at their different developmental stages. As with all teaching for these subjects, specialist academies will ensure that their teaching is sensitive, age-appropriate, developmentally appropriate and delivered with reference to the law.

8.4 To support effective delivery of Relationships Education, RSE, and Health Education and ensure accessibility for all pupils, including those with special educational needs and disabilities (SEND), the Trust encourages the use of a range of interactive and inclusive teaching strategies that promote engagement and deepen understanding.

These may include, for example; structured group and paired activities, drama and role play to explore scenarios and build empathy, and practical exercises tailored to individual learning needs. Staff may also incorporate visual aids, simplified language, and video content to introduce or reinforce key concepts, and invite expert guest speakers to provide specialist knowledge and relatable perspectives. All strategies will be selected with consideration for age-appropriateness, safeguarding, and alignment with the intended learning outcomes. Teachers are expected to differentiate their approach to meet the diverse needs of their pupils and ensure that all activities are delivered in a safe, respectful and inclusive environment.

9 | Right to Request Withdrawal from Sex Education

9.1 The Trust hopes that parents will feel comfortable with, and understand the importance of, the education provided to their children as described in this policy.

9.2 Parents of children in primary academies have the right to withdraw their child from sex education and should state this in writing and send it to the PSHE Lead at their child's academy. Parents of children in secondary academies have the right to request that their child be withdrawn from some or all of the sex education aspects of RSE.

9.3 Before withdrawing or making a request, the Trust strongly urges parents to carefully consider their decision as sex education is a vital part of the school curriculum and supports child development. Parents cannot withdraw their child from:

- Relationships Education
- Health Education
- Topics taught as part of the science curriculum, including science topics related to puberty or sexual reproduction

- 9.4 Any parent wishing to withdraw their child from sex education in a secondary academy should put their request in writing and send it to the PSHEE Lead at their child's academy who will arrange a meeting to discuss their concerns. Once those discussions have taken place, except in exceptional circumstances, the school will respect the parents' request to withdraw the child, up to and until three terms before the child turns 16. After that point, if the child wishes to receive sex education rather than be withdrawn, the school will make arrangements to provide the child with sex education during one of those terms. In Secondary Schools, staff will also meet with the pupils to discuss the withdrawal, so their wishes are heard too, making sure they understand that they may choose to opt back in 3 terms before they are 16.
- 9.5 In primary academies, should parents wish to withdraw their child from sex education (excluding content that forms part of the science curriculum), the Principal will grant this request. In secondary academies, Principals will respect parents' wishes to withdraw their child from sex education, except in exceptional circumstances, such as where there are safeguarding concerns or vulnerabilities relating to the pupil.
- 9.6 If a pupil is excused from sex education the respective academy will ensure that the pupil receives appropriate, purposeful education during the period of withdrawal.
- 9.7 The Trust recognises that all individuals will engage in relationships with others, and that most pupils will form sexual relationships at some stage in their lives. Relationships Education is designed to provide pupils with the knowledge and skills to conduct themselves with kindness and respect in all relationships as they mature, enabling them to enjoy positive connections and to safeguard both themselves and others. The curriculum will emphasise the development and maintenance of healthy relationships, whilst also equipping pupils to recognise risks and potential harms. Relationships Education may therefore cover topics such as the prevention of sexual abuse or the dangers of sharing inappropriate material online, whilst ensuring this is delivered without explicit descriptions of sexual activity.
- 9.8 In line with good safeguarding practice, pupils will also be taught the correct terminology for body parts and encouraged to use these terms with confidence. This knowledge may be delivered as part of Health Education in the primary phase, without reference to specific sexual acts.

10 | Confidentiality and Child Protection

- 10.1 The Trust hopes to provide a safe and supportive school community where pupils feel comfortable seeking help and guidance on anything that may be concerning them about life either at school or at home. All teachers will receive training around confidentiality and should ensure that pupils understand that they cannot offer unconditional confidentiality. If a child protection issue is disclosed to a member of staff, that member of staff should follow the Trust's Child Protection and Safeguarding procedures.

- 10.2 If a staff member is approached by a pupil under 16 who is having, or is contemplating having sexual intercourse, the teacher should:
- Ensure that the pupil is accessing all the contraceptive and sexual health advice available as well as the law surrounding the age of consent, and understands the risks of being sexually active.
 - Encourage the pupil to talk to their parent or carer. Pupils may feel that they are more comfortable bringing these issues to a teacher they trust, but it is important that children and their parents have open and trusting relationships when it comes to sexual health and the academy will encourage this as much as possible. Decide whether there is a child protection issue. This may be the case if the teacher is concerned that there is coercion or abuse involved. If a member of staff is informed that a pupil is having, or is contemplating having sexual intercourse, this will be dealt with under child protection procedures.
 - Report the matter to the DSL who will be able to make an assessment of the circumstances based on wider contextual information about the child.
- 10.3 Pupils with special educational needs may be more vulnerable to exploitation and less able to protect themselves from harmful influences. If staff are concerned that this is the case, they should seek support from the Designated Safeguarding Lead to decide what is in the best interest of the child.

11 | Equal Opportunities

- 11.1 Relationships Education, RSE, and Health Education will be delivered equally to both genders, normally in mixed classes. There are, however, certain topics that may be delivered in single sex groupings e.g. menstruation and personal hygiene.
- 11.2 The Trust has a commitment to ensure that Relationships Education, RSE and Health Education is relevant to all pupils and is taught in a way that is age and stage appropriate. Pupils are encouraged to openly and freely discuss diversity of personal, social and sexual preferences. Prejudiced views will be challenged, and equality promoted. Any bullying that relates to sexual behaviour or perceived sexual orientation will be dealt with swiftly and seriously in accordance with the Trust's Behaviour Policy.

12 | Complaints

- 12.1 If parents have any concerns or complaints over the application or implementation of this policy they should raise their concerns with a staff member or the Principal in accordance with the Trust's Complaints Procedure.

Appendix 1- RSE Secondary Stage Curriculum and Outcomes

Year Group	Term	Topic/Theme	Resources
Year 7		Healthy relationships Importance of trust Peer pressure Maintaining friendships Anti bullying Online grooming Marriage Different families, stability and commitment Falling in love and romantic feelings	EC Resources PSHE Association Resources About You Puberty

Further Education			

Families	<ul style="list-style-type: none"> • That there are different types of committed, stable relationships. • How these relationships might contribute to human happiness and their importance for bringing up children. • What marriage is, including their legal status – for example, that marriage carries legal rights and protections not available to couples who are cohabiting or who have married, for example, in an unregistered religious ceremony. • Why marriage is an important relationship choice for many couples and why it must be freely entered into. • The characteristics and legal status of other types of long-term relationships. • The roles and responsibilities of parents with respect to raising of children, including the characteristics of successful parenting. • How to determine whether other children, adults or sources of information are trustworthy, judge when a family, friend, intimate or other relationship is unsafe (and to recognise this in others’ relationships), how to seek help or advice, including reporting concerns about others, if needed.
Respectful relationships,	<ul style="list-style-type: none"> • The characteristics of positive and healthy friendships, in all contexts including online, such as:

including friendships

- Trust, respect, honesty, kindness, generosity, boundaries, privacy, consent and the management of conflict
- Reconciliation and ending relationships, this includes different (non-sexual) types of relationship.
- Practical steps they can take in a range of different contexts to improve or support respectful relationships.
- How stereotypes, in particular stereotypes based on sex, gender, race, religion, sexual orientation or disability, can cause damage (for example, how they might normalise non-consensual behaviour or encourage prejudice).
- That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including people in positions of authority and due tolerance of other people's beliefs.
- About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying and how and where to get help.
- That some types of behaviour within relationships are criminal, including violent behaviour and coercive control.
- What constitutes sexual harassment and sexual violence and why these are always unacceptable.
- The legal rights and responsibilities regarding equality (particularly with reference to the protected characteristics as defined in the Equality Act 2010) and that everyone is unique and equal.

Online and media

- Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online.
- About online risks, including that any material someone provides to another has the potential to be shared online, "sexting", and the difficulty of removing potentially compromising material placed online.
- Not to provide material to others that they would not want shared further and not to share personal material which is sent to them.
- What to do and where to get support to report material or manage issues online.
- The impact of viewing harmful content.
- That specifically sexually explicit material, for example pornography, presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners.

	<ul style="list-style-type: none"> • That sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail. • How information and data is generated, collected, shared and used online.
Being safe	<ul style="list-style-type: none"> • The concepts of, and laws relating to, sexual consent, sexual exploitation, abuse, grooming, coercion, harassment, rape, domestic abuse, forced marriage, honour-based violence and FGM, and how these can affect current and future relationships. • How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn, in all contexts, including online.
Intimate and sexual relationships, including sexual health	<ul style="list-style-type: none"> • How to recognise the characteristics and positive aspects of healthy one-to-one intimate relationships, which include mutual respect, consent, loyalty, trust, shared interests and outlook, sex and friendship. • That all aspects of health can be affected by choices they make in sex and relationships, positively or negatively, for example physical, emotional, mental, sexual and reproductive health and wellbeing. • The facts about reproductive health, including fertility and the potential impact of lifestyle on fertility for men and women and menopause. • That there are a range of strategies for identifying and managing sexual pressure, including understanding peer pressure, resisting pressure and not pressurising others. • That they have a choice to delay sex or to enjoy intimacy without sex. • The facts about the full range of contraceptive choices, efficacy and options available. • The facts around pregnancy including miscarriage. • That there are choices in relation to pregnancy (with medically and legally accurate, impartial information on all options, including keeping the baby, adoption, abortion and where to get further help). • How the different sexually transmitted infections (STIs), including HIV and AIDs, are transmitted, how risk can be reduced through safer sex (including through condom use) and the importance of and facts about testing. • About the prevalence of some STIs, the impact they can have on those who contract them and key facts about treatment. • How the use of alcohol and drugs can lead to risky sexual behaviour.

- How to get further advice, including how and where to access confidential sexual and reproductive health advice and treatment.

The Curriculum for Science covers:

Key Stage 3:

- Reproduction in humans (as an example of a mammal), including the structure and function of the male and female reproductive systems, menstrual cycle (without details of hormones), gametes, fertilisation, gestation and birth, to include the effect of maternal lifestyle on the foetus through the placenta
- Reproduction in plants, including flower structure, wind and insect pollination, fertilisation, seed and fruit formation and dispersal, including quantitative investigation of some dispersal mechanisms.

Key stage 4:

- Hormones in human reproduction, hormonal and non-hormonal methods of contraception
- Communicable diseases including sexually transmitted infections in humans (including HIV/AIDs)
- Genes and sex determination in humans.

Resources

EC Resources

PSHE Association

Appendix 2- Health Education Secondary Stage Curriculum and outcomes

Mental wellbeing

- How to talk about their emotions accurately and sensitively, using appropriate vocabulary.
- That happiness is linked to being connected to others.
- How to recognise the early signs of mental wellbeing concerns.
- Common types of mental ill health (e.g., anxiety and depression).
- How to critically evaluate when something they do or are involved in has a positive or negative effect on their own or others' mental health.

	<ul style="list-style-type: none"> The benefits and importance of physical exercise, time outdoors, community participation and voluntary and service-based activities on mental wellbeing and happiness.
Internet safety and harms	<ul style="list-style-type: none"> The similarities and differences between the online world and the physical world, including: the impact of unhealthy or obsessive comparison with others online (including through setting unrealistic expectations for body image), how people may curate a specific image of their life online, over-reliance on online relationships including social media, the risks related to online gambling including the accumulation of debt, how advertising and information is targeted at them and how to be a discerning consumer of information online. How to identify harmful behaviours online (including bullying, abuse, or harassment) and how to report, or find support, if they have been affected by those behaviours.
Physical health and fitness	<ul style="list-style-type: none"> The positive associations between physical activity and promotion of mental wellbeing, including as an approach to combat stress. The characteristics and evidence of what constitutes a healthy lifestyle, maintaining a healthy weight, including the links between an inactive lifestyle and ill health, including cancer and cardio-vascular ill-health. About the science relating to blood, organ and stem cell donation.
Healthy eating	<ul style="list-style-type: none"> How to maintain healthy eating and the links between a poor diet and health risks, including tooth decay and cancer.
Drugs, alcohol and tobacco	<ul style="list-style-type: none"> The facts about legal and illegal drugs and their associated risks, including the link between drug use, and the associated risks, including the link to serious mental health conditions. The law relating to the supply and possession of illegal substances. The physical and psychological risks associated with alcohol consumption and what constitutes low risk alcohol consumption in adulthood. The physical and psychological consequences of addiction, including alcohol dependency. Awareness of the dangers of drugs which are prescribed but still present serious health risks. The facts about the harms from smoking tobacco (particularly the link to lung cancer), the benefits of quitting and how to access support to do so.
Health and prevention	<ul style="list-style-type: none"> About personal hygiene, germs including bacteria, viruses, how they are spread, treatment and prevention of infection, and about antibiotics.

	<ul style="list-style-type: none"> • About dental health and the benefits of good oral hygiene and dental flossing, including healthy eating and regular check-ups at the dentist. • (Late secondary) the benefits of regular self-examination and screening • The facts and science relating to immunisation and vaccination. • The importance of sufficient good quality sleep for good health and how a lack of sleep can affect weight, mood and ability to learn.
Basic first aid	<ul style="list-style-type: none"> • Basic treatment for common injuries. • Life-saving skills, including how to administer CPR. • The purpose of defibrillators and when one might be needed.
Changing adolescent body	<ul style="list-style-type: none"> • Key facts about puberty, the changing adolescent body and menstrual wellbeing. • The main changes which take place in males and females, and the implications for emotional and physical health.

Appendix 3 – Teaching Strategies including for Students with SEND

At SCA we provide a broad and balanced curriculum that covers the statutory guidance and that is mapped to the coded requirements of the PSHE Association’s programme of study. Our curriculum is inclusive and supports all students. We use adaptive teaching principles by setting ambitious learning objectives while incorporating varying levels of support and scaffolded resources to assist students of varying abilities and those with SEND. The use of workbooks allows key vocabulary to be front loaded. We utilise a variety of interactive teaching methods such as video clips (in most, if not all lessons,), guest speakers, drama, role play, group and partner work. Seating plans are used in all lessons to support students learning. Students working in our IHub have lessons tailored to their stage appropriate needs – these lessons follow the same format as our other lessons so that students can easily transition back into class.
